**Evaluator**

Abigail Whitahauer

**Location**

Pelham, AL Roverchase

**Assertiveness - People (The degree to which a puppy is bold and self-assured with familiar and unfamiliar people)**

3=Forward (lacking restraint; presumptuous, bold with both familiar and unfamiliar people, e.g. greets by getting in lap and leaping into tester's face)

**Notes (optional)**

Very balanced puppy - bold

**Assertiveness - Dogs (The degree to which a puppy is bold and self-assured with familiar and unfamiliar dogs)**

3=Forward (Lacking restraint; presumptuous, bold with both familiar and unfamiliar

dogs, e.g., greets by climbing on back, head, or neck)

**Notes (Optional)**

N/A - we did not do this test in the eval since this puppy has proven to not be fearful when meeting other strange dogs - large, and small

**Biddability (The degree to which the puppy shows an interest in working with and/or understanding tester)**

3=Extremely Biddable (Intensely focused on working with and/or understanding tester's requests throughout test; rarely frustrated or distracted)

**Notes (optional)**

Very engaged

**Courage (Mental strength to persevere despite fear or difficulty)**

3=Extremely courageous (independently perseveres through every frightening and difficult situation)

**Notes (optional)\_1**

Tail immediately came up after umbrella opening or tin dropping. Every toy was met with no extreme reaction.

**Energy Level (capacity and need for vigorous physical and mental activity)**

2=Moderate Energy (trots most of test, may stop moving a few times)

**Notes (optional)\_2**

High energy for a pug puppy. Very balanced

**Environmental Focus (The need to concentrate attention or energy on surroundings)**

2=Moderate Environment Focus (Notices environment but is easily redirected)

### **Notes (optional)\_3**

#### **Forgiveness (Reaction to unwarranted adverse behavior or negative emotion from a person)**

3=Extremely forgiving (Immediately turns toward and touches tester or gets in tester's lap)

### **Notes (optional)\_4**

Hardly any reaction to toe pinch

#### **Handshyness (Puppy's reaction to a standing person reaching over its head to pet it ... note: most pugs hate this)**

2=No reaction (no reaction to overhead reach)

### **Notes (optional)\_5**

N/A - did not do this test. Most pugs never do well with this probably because of the position of their eyes on their head so we never fool with this. In fact, if you ever do a CGC test, see if the evaluator will pet the pug from the side and not over the top of head.

#### **Pain Threshold - 1st Front Paw (The lowest level of pain which a puppy reacts to when the webbing between the two middle toes is pinched with fingers, with consistently increasing pressure, 0 being no pressure and 10 being the most pressure the tester can apply)**

10=Extremely Pain Tolerant

### **Notes (optional)\_6**

No reaction

**Pain Threshold - Average score**

10

**Self-Confidence (Assurance; confidence in its own judgement, power, and abilities)**

3=Very Confident (Relaxed, eager, no fear or hesitation, always upright body carriage and forward movement)

**Notes (optional)\_7**

**What, if anything, concerned the puppy?**

nothing

**Stress Type (Responds to stress with increased or decreased activity)**

2=Middle of the Road (No real change in the puppy's activity under stress)

**Notes (optional)\_8**

**Learning Speed (Speed with which puppy learns to solve a problem. Note: it is the change in speed, if any, between the 1st and 2nd attempts that indicates how quickly a puppy learns.)**

10=Fast (During the 2nd attempt, the puppy finds breeder 50% or faster than the first time (if physically possible)

**Notes (optional)\_9**

We did not do this test in eval however we have observed fast learning pace with pup

**Patience (The extent to which the puppy calmly waits during periods of inactivity)**

2=Moderately Patient (Remains in general vicinity of tester, may attempt to reengage tester, may eventually leave)

**Notes (optional)\_10**

**Problem Solving Style (Manner in which puppy approaches solving difficult problems) - Check all traits that apply.Enganged**
